This book is a collection of essays written over several years. Professor Sulayman S. Nyang has collected them to share with the reading public his insights and research findings on the emerging Muslim community in the United States of America. Working on the assumption that American Muslims are still unknown to most Americans, the author addresses several issues which are relevant to the whole discussion of religious plurality and multiculturalism in American society. Its contents range from Islam and the American Dream to the birth and development of the Muslim press in the United States. -- Publisher description.

This book provides a critical study of the relationship between Robert Burns and the United States of America, c.1786-1866. Though Burns is commonly referred to as Scotland’s “National Poet”, his works were frequently reprinted in New York and Philadelphia; his verse mimicked by an emerging canon of American poets; and his songs appropriated by both abolitionists and Confederate soldiers during the Civil War era. Adopting a transnational, Atlantic Studies perspective that shifts emphasis from Burns as national poet to transnational icon, this book charts the reception, dissemination and cultural memory of Burns and his works in the United States up to 1866.

Provides an overview of the United States of America, discussing such topics as its geography, history, government, indigenous peoples, plants and animals, holidays, and symbols.

2020 L.A. Times Book Prize Finalist, History A provocative examination of how the U.S. military has shaped our entire world, from today's costly, endless wars to the prominence of violence in everyday American life. The United States has been fighting wars constantly since invading Afghanistan in 2001. This nonstop warfare is far less exceptional than it might seem: the United States has been at war or has invaded other countries almost every year since independence. In The United States of War, David Vine traces this pattern of bloody conflict from Columbus's 1494 arrival in Guantanamo Bay through the 250-year expansion of a global US empire. Drawing on historical and firsthand anthropological research in fourteen countries and territories, The United States of War demonstrates how US leaders across generations have locked the United States in a self-perpetuating system of permanent war by constructing the world's largest-ever collection of foreign military bases—a global matrix that has made offensive interventionist wars more likely. Beyond exposing the profit-making desires, political interests, racism, and toxic masculinity underlying the country's relationship to war and empire, The United States of War shows how the long history of U.S. military expansion shapes our daily lives, from today's multi-trillion-dollar wars to the pervasiveness of violence and militarism in everyday U.S. life. The book concludes by confronting the catastrophic toll of American wars—which have left millions dead, wounded, and displaced—while offering proposals for how we can end the fighting.
