Scandal existed long before celebrity gossip columns, often hidden behind the closed doors of the Georgian aristocracy. But secrets were impossible to keep in a household of servants who listened at doors and spied through keyholes. The early mass media pounced on these juicy tales of adultery, eager to cash-in on the public appetite for sensation and expose the shocking moral corruption of the establishment Drawing on a rich collection of original and often outrageous sources, this book brings vividly to life stories of infidelity in high places – passionate, scandalous, poignant or tragic – and reveals how the flood of print detailing sordid sexual intrigues, created a national outcry and made people question whether the nobility was fit to rule.

Manana Dumbadze is a communications specialist with 19 years experience working with various media (including print and television) alongside 12 years experience working with the NGO sector and five years with the business community. Worked as communications specialist for USAID's Georgia Business Climate Reform Project for two years, ensuring that stakeholders understood and could access the benefits of new reforms in Georgia. During her tenure, GBCR project received the USAID/Caucasus award for Outstanding Success Story in recognition of excellent communications outreach efforts and creation of success stories emphasizing U.S. government assistance to the Georgian Business Sector. Also helped develop Internet-based tools to publish information about Georgian government initiatives, and assisted counterpart governmental institutions in developing their own communication plans.

In 1857, a group of young people who had participated in an orgy in a private mansion was sentenced for contempt of public decency (outrage public à la pudeur) because a curious voyeur was able to watch them from the outside through a keyhole. In 1893, students who organised the Quat'z'Arts ball declared a 'war of the nude' against the courts by demanding that certain forms of public nudity be considered chaste. In the 1960s, a passionate debate ensued on whether women bathing topless on French beaches constituted indecent exposure. For Marcia Iacub, the crux of each of these debates hinges on where the public ends and the private begins, and what one can reveal and what one ought to hide. Through an analysis that blends the law, architecture, literature and psychiatry, this book tells the story of public decency. We discover how the law has long exerted control over sexuality by distributing the visible world between illegal and legal domains with regard to certain behaviours, thus transforming real spaces into institutional and political spaces. Today, the term pudeur has disappeared from the French penal code to be replaced by Sex. But, far from being an epic story of hard-won freedom, Iacub demonstrates that the transformation techniques used by the State in the last two centuries have rendered sexuality into a spectacle and have conditioned our spaces, our clothes, our comportment and even some of our mental illnesses. In so doing, Iacub offers us a politico-legal history of the gaze.

Finally revealing the family's indefatigable women among its legendary military figures, The Howe Dynasty recasts the British side of the American Revolution. In December 1774, Benjamin Franklin met Caroline Howe, the sister of British General Sir William Howe and Richard Admiral Lord Howe, in a London drawing room for "half a dozen Games of Chess." But as historian Julie Flavell reveals, these meetings were about much more than board games; they were cover for a last-ditch attempt to forestall the outbreak of the American War of Independence. Aware that the distinguished Howe family, both the men and the women, have been known solely for the military exploits of the brothers, Flavell investigated the letters of Caroline Howe, which have been blatantly overlooked since the nineteenth century. Using revelatory documents and this correspondence, The Howe Dynasty provides a groundbreaking reinterpretation of one of England's most famous military families across four wars. Contemporaries considered the Howes impenetrable and intensely private—or, as Horace Walpole called them, "brave and silent." Flavell traces their roots to modest beginnings at Langar Hall in rural Nottinghamshire and highlights the Georgian phenomenon of the politically involved aristocratic woman. In fact, the early careers of the brothers—George, Richard, and William—can be credited not to the maneuverings of their father, Scrope Lord Howe, but to those of their aunt, the savvy Mary Herbert Countess Pembroke. When eldest sister Caroline came of age during the reign of King George III, she too used her intimacy with the royal inner circle to promote her brothers, moving smoothly between a straitlaced court and an increasingly scandalous London high life. With genuine suspense, Flavell skillfully recounts the most notable episodes of the brothers' military campaigns: how Richard, commanding the HMS Dunkirk in 1755, fired the first shot signaling the beginning of the Seven Years' War at sea; how George won the devotion of the American fighters he commanded at Fort Ticonderoga just three years later; and how youngest brother General William Howe, his sympathies torn, nonetheless commanded his troops to a bitter Pyrrhic victory in the Battle of Bunker Hill, only to be vilified for his failure as British commander-in-chief to subdue Washington's Continental Army. Britain's desperate battles to guard its most vaunted colonial possession are here told in tandem with London parlor-room intrigues, where Caroline bravely fought to protect the Howe reputation in a gossipy aristocratic milieu. A riveting narrative and long overdue reassessment of the entire family, The Howe Dynasty forces us to reimagine the Revolutionary War in ways that would have been previously inconceivable.

"Her Scottish father put her in an institution in Calcutta when she was small. Guilt made her Highland gentry grandfather send for her, but he considered her an encumbrance and boarded her in Elgin. When she was an adolescent, her grandmother enrolled her in an Edinburgh boarding school where she developed a crush on one teacher and received harsh rebukes from the other. Brushed off by the former and chastised by the latter, she retaliated by alleging that they were sexually intimate. The teachers sued for libel, in the case that ensued, she was seen through sexist and racist lenses, constructed as an Other. While the case was still going on, she was married to a Presbyterian minister. If the idea was that he would tame her and make her conformable as other household Janes, the plan failed. He turned out to be a womanizer and Jane took revenge on him by reporting his unchaste behavior to his fellow ministers. Later she made a laughingstock of him by joining another church. Posthumously, she became a mean show-stopping character in a play by Lillian Hellman. Such was the life of Jane Cumming, the biracial woman whose recovered story is the subject of this biography. Spanning three continents and more than two centuries and based on archival research, this offers a sympathetic portrait of the protagonist, seeing her as a resilient figure who, when threatened by figures of authority, took arms against her sea of troubles so as to oppose and end them"--

Did an American president really sleep with film star Marilyn Monroe? What were the real facts of Watergate? How was the former FIFA president involved in bribery allegations? This book lifts the lid on scandals that have rocked the world. From the sexual peccadillos of America's Founding Fathers to the illegal data harvesting of Cambridge Analytica, The World's Worst Scandals examines shocking events from across history. Find out about the politicians, Hollywood celebrities, and corporate moguls who abused their power and didn't get away with it.

What were the laws on marriage in Ireland, and did church and state differ in their interpretation? How did men and women meet and arrange to marry? How important was patriarchy and a husband's control over his wife? And what were the options available to Irish men and women who wished to leave an unhappy marriage? This first comprehensive history of marriage in Ireland across three centuries looks below the level of elite society for a multi-faceted exploration of how marriage was perceived, negotiated and controlled by the church and state, as well as by individual men and women within Irish society. Making extensive use of new and under-utilised primary sources, Maria Luddy and Mary O'Dowd explain the laws and customs around marriage in Ireland. Revising current understandings of marital law and relations, Marriage in Ireland, 1660-1925 represents a major new contribution to Irish historical studies.

The influence of anarchists such as Proudhon and Bakunin is apparent in Jean-Paul Sartre's political writings, from his early works of the 1920s to Critique of Dialectical Reason, his largest political piece. Yet, scholarly debate overwhelmingly concludes that his political philosophy is a Marxist one. In this landmark study, William L. Remley sheds new light on the crucial role of anarchism in Sartre's writing, arguing that it fundamentally underpins the body of his political work. Sartre's political philosophy has been infrequently studied and neglected in recent years. Introducing newly translated material from his early oeuvre, as well as providing a fresh perspective on his colossal Critique of Dialectical Reason, this book is a timely re-invigoration of this topic. It is only in understanding Sartre's anarchism that one can appreciate the full meaning not only of the Critique, but of Sartre's entire political philosophy. This book sets forth an entirely new approach to Sartre's political philosophy by arguing that it espouses a far more radical anarchist position than has been previously attributed to it. In doing so, Jean-Paul Sartre's Anarchist Philosophy not only fills an important gap in Sartre scholarship but also imitates a much needed revision of twentieth century thought from an anarchist perspective.

We were going to call this a Pocket Guide to Noble Scandals but theres nothing noble about these aristocrats. Tales of greed, list, murder and mayhem litter the pages of Andy Hughes must-read book. Whether its gambling away their familys fortune, writing racy poems and shocking decent people, the aristocracy have been at the center of scandals for centuries, abusing their position of power to take advantage of everyone else or kill those who get in their way. This Pocket Guide to Scandals in the Aristocracy is a race through history, divided into eras to introduce the best and worst scurrilous tales from Francis Lovell being bricked up alive in his stately home to the ongoing mystery of Lord Lucan and delicious (but true) gossip which delighted readers when the aristocrats were thinly disguised in the novels of their day. Bring history alive with this fact-filled guide.Youll also love: The Pocket Guide to Royal Scandals and The Pocket Guide to Political Scandals, both by Andy Hughes

John Manners, Marquis of Granby, famously led a cavalry charge during the Seven Years War in 1760, losing both hat and wig. A commander of skill and courage, he was cherished by his men and lauded by the British public as an authentic military hero. Granby predeceased his father, the 3rd Duke of Rutland, and never inherited his title, but left two sons whose contrasting fortunes and tragically short lives are the subject of this meticulously researched and richly illustrated book. Charles became 4th Duke in 1779, sought reconciliation with the American colonies and was Viceroy of Ireland,Robert embarked on a naval career, became flag captain of the Resolution and died of injuries sustained at the Battle of the Saintes. Based upon the detailed archives held at Belvoir Castle, Resolution is both an enthralling saga of two generations of the Manners family and a finely delineated portrait of aristocratic, political and naval life in mid-Georgian England.
