A painting by Hergé, the creator of Tintin, is now at the heart of a mystery worthy of the comic book hero himself. The picture for the 1936 Tintin album The Blue Lotus is set to be auctioned next...

The definitive monograph on the art of Tintin. Since he first appeared in Hergé's weekly cartoon strip in Le Petit Vingtième in Brussels in 1929, Tintin has become one of the most celebrated characters in the comic world. With more than 200 million copies of the famous twenty-four "albums" sold worldwide, Hergé's iconic hero has exploded genres and expectations, bringing readers of all ages to his stories for their unique mixture of artistry, history, and adventure. Drawing on the archives of the Hergé Museum in Brussels, this book looks at the evolution of Hergé's artwork, from the simplicity of the early newspaper strips to the sophisticated graphic work of the later books. An avid art collector, Hergé was inspired by Old Masters but infatuated with graphic design and modern art, from the Constructivist work he studied in his youth to the Lichtensteins and Mirós he would travel to see in his maturity. Written by the Belgian art critic Pierre Sterckx—and translated by the British expert on Tintin, Michael Farr—this is the definitive book on the art of Tintin. With rarely seen pencil sketches, character drawings, and watercolors alongside original artwork from the finished stories, the book illuminates Tintin's progress from whimsical caricature to profound icon and reveals Hergé's parallel development from cartoonist to artist.

Where To Download Tintin Herges Masterpiece

"Simultaneously published in French as Musée Hergé in 2013 by Editions de la Martinière Group, Paris"--Colophon.

Offering a captivating portrait of a man who revolutionized the art of comics, this is the first full biography of Hergé available for an English-speaking audience. --from publisher description.

Join the world's most famous travelling reporter in his exciting adventures as he gets mixed up with an aeroplane hijacking in Flight 714 to Sydney and a South American revolution in Tintin and the Picaros. This volume also includes the unfinished Tintin and Alph-Art, a fascinating insight into Hergé's creative process. Flight 714 to Sydney Tintin, Captain Haddock and Professor Calculus are on their way to Sydney, Australia. Through a chance meeting they are invited to travel on board the private jet of billionaire Lazlo Carreidas. But then they fall victim to a plot to kidnap Carreidas and are captured by Tintin's arch enemy Rastapopoulos. Tintin and the Picaros Bianca Castafiore has been imprisoned by General Tapioca! Also accused of threatening Tapioca's dictatorship, Tintin, Calculus and Haddock jet off to the jungle HQ of the revolutionaries, and hatch a plot surrounding the upcoming carnival and Haddock's sudden and mysterious disgust for whisky. Tintin and Alph-Art In an interview shortly before his death, Hergé wrote of the last Tintin adventure: "The plot revolves around a tale of forgers . . . The book is set in the world of contemporary art. The narration itself is in the course of evolution. I am still doing my research and I honestly don't know where this story will lead me." Sadly, the tale was never completed, but this unique book gives an insight into the work Hergé had done on the project before he died. At the end, Tintin is about to be cast into a living sculpture by a mysterious enemy - one last cliffhanger for the world's best-loved boy journalist. Join the most iconic character in comics as he embarks on an extraordinary adventures spanning historical and political events, and thrilling mysteries. Still selling over 100,000 copies every year in the UK and having been adapted for the silver screen by Steven Spielberg and Peter Jackson in 2011, The Adventures of Tintin continue to charm more than 80 years after they first found their way into publication. Since then an estimated 230 million copies have been sold, proving that comic books have the same power to entertain children and adults in the 21st century as they did in the early 20th.

Presents the author's final, unfinished story, in a book that includes a series of unpublished documents recently discovered to shed light on the incomplete conclusion of the story.

The Metamorphoses of Tintin, a pioneering book first published in French in 1984, offers a complete analysis of Hergé's legendary hero.

Acclaimed author Frederic Tuten boldly revives the well-loved character Tintin -- the eternally youthful protagonist from Belgian artist Hergé's popular comic book series, The Adventures of Tintin -- and leads him into an adventure like none he has experienced before. Once again joined by Captain Haddock and his little dog Snowy, the intrepid world traveler Tintin embarks on a mysterious journey to Machu Picchu in Peru. But where danger and intrigue have met him before, this voyage brings new perils and enchantments.

The little black-and-white cartoon figure of 'Tintin' first appeared in Belgium in 1929 in a Catholic newspaper where his creator, Hergé, worked. Harry Thompson looks at the story of Hergé, of 'Tintin' and his origins, and beyond to when President de Gaulle could call 'Tintin' 'his only rival'.

Examines the life and passions of a man who, despite his international fame, preferred to avoid the limelight, finding inspiration in modern art, the latest scientific developments and world affairs, and seeking enlightenment in Zen Buddhism and philosophy.

Hergé created only twenty-four Tintin books which have been translated into more than seventy languages and sold 230 million copies worldwide. The Real Hergé: The Inspiration Behind Tintin takes an in-depth look at the man behind the cultural phenomenon and the history that helped shape these books. As well as focussing on the controversies that engulfed Hergé, this biography will also look at his personal life, as well as the relationships and experiences that influenced him.
