Mystical Tales of the South is comprised of a collection of myths, legends, and folklore situated in Western North Carolina. This is Patricia's 3rd collection of short stories. Learn about the traditions and local myths of Fontana Lake's man-eating monster, the Boojum of Swain County, or the Healer of Tuckasegee, and much more. Discover the mystery behind the Brown Mountain Lights, the Clurichaun, and the birthing of the Smoky Mountains. Grab a cup of coffee and settle in for an eye-opening experience. Magic under the Willow Tree is a short story written by Verna Humphrey. This is her third published story. Dreams occur within our sleep and sometimes our dreams are motivated by things that trigger the subconscious mind. Sometimes, our dreams can be manipulated, in which this case is of manipulation through magic. In this story, set around New Orleans, unseen forces are at work within the dreams of two people. The reader can only imagine how these unknown forces will span across time

Lost in love and don't know much? Paul Feig knew even less... Like any other red-blooded, straight young man, Paul Feig spent much of his teenage years trying to solve the mystery of women. Unlike most red-blooded, straight teenage boys, however, Paul Feig was sadly at a considerable disadvantage. He was tall and gangly. He had a love for musical theater. And, perhaps the death knell for his burgeoning sex life, Paul was a tap dance student. (And we have the pictures to prove it—see the front cover.) Infused with the same witty and infectiously readable style of his first book, *Kick Me, Superstud* chronicles the trials and tribulations of Feig's young dating life with all the same excruciating detail as an on-air gastric bypass—and you just won't be able to tear yourself away. Feig's series of shudder-to-think but oddly familiar (come on—we've all been dumped by someone we didn't even like that much) anecdotes include: his first date, at an REO Speedwagon concert with the most endowed girl in school, who leaves him sitting next to a puddle of puke; his first breakup, accomplished by moving across the country; his mortifying date with his secretly bigoted girlfriend; his discovery of a new self-love technique that almost lands him in the hospital; and his less-than-idealistic "first time," which he nevertheless elevates to biblical proportions. In *Superstud*, Paul Feig tells all in a hilarious but true testament to geekdom, love, and growing up.

When Ami saves an immortal protector from a vicious vampire attack, she finds herself attracted to him, but Marcus, while admiring her bravery, does not want to take her on as a partner.

looking for a second chance—a shot at living a richer, less restricted life. Understanding how echoes of the past resonate in and shape the present provides opportunities to resolve crippling conflicts and make new choices.

Furthermore, such insight produces a sense of mastery. But not everyone is aware that the problems s/he brings into weekly therapy are just the first few bars of his or her song.

Jane Hall wrote *Deepening the Treatment* to help the psychodynamically informed therapist help the patient recognize that exploring ideas and feelings is a journey worth taking and that the therapist is a trustworthy guide. Often, people need to wade before they feel comfortable diving into deep waters.

Hall introduces a responsible if unconventional application of respectful, nondirective therapy, and she supports her vision with clinical examples and thoughtful attention to issues of basic technique—among them separation, termination, self-disclosure, frequency of sessions, tolerating patient rage, and, of course, interpreting the transference.

"What Nature Suffers to Groe" explores the mutually transforming relationship between environment and human culture on the Georgia coastal plain between 1680 and 1920. Each of the successive communities on the coast--the philanthropic and imperialistic experiment of the Georgia Trustees, the plantation culture of rice and sea island cotton planters and their slaves, and the postbellum society of wage-earning freedmen, lumbermen, vacationing industrialists, truck farmers, river engineers, and New South promoters--developed unique relationships with the environment, which in turn created unique landscapes. The core landscape of this long history was the plantation landscape, which persisted long after its economic foundation

had begun to erode. The heart of this study examines the connection between power relations and different perceptions and uses of the environment by masters and slaves on lowcountry plantations--and how these differing habits of land use created different but interlocking landscapes. Nature also has agency in this story; some landscapes worked and some did not. Mart A. Stewart argues that the creation of both individual and collective livelihoods was the consequence not only of economic and social interactions but also of changing environmental ones, and that even the best adaptations required constant negotiation between culture and nature. In response to a question of perennial interest to historians of the South, Stewart also argues that a "sense of place" grew out of these negotiations and that, at least on the coastal plain, the "South" as a place changed in meaning several times.

KLR650 (2008-2012),

In a trade-off she's lived to regret, Emily Castle left home years ago to become an interior designer. The youngest of three sisters, Emily desperately wanted to prove herself. Success, though, came at the cost of leaving behind the man she loved. For Boone Dorsett, losing Emily left his heart shattered, but another woman was waiting in the wings. Now a widower with a young son, Boone has a second chance with Emily when a storm brings her home. But with his former in-laws threatening a custody suit, the stakes of loving her are higher than ever. Will fate once again separate them—or is the time finally right for these two star-crossed lovers?
