volumes provide a representative overview of early childhood education practices and research, and redress the current North-South imbalance of published work on the subject.

The authors' objective in *Tools of the Mind* is to enable future teachers to apply the idea of teaching, or arming, young children with the mental tools necessary for learning. They view mental tools as a cycle in which ideas are (1) learned from others, (2) modified and changed, and (3) passed back on to others. The book includes examples and activities that profile the Vygotskian approach at work in various schools in the Denver metropolitan area.

Parallel Learning of Reading and Writing in Early Childhood explores why it's important to provide a balanced language learning environment for young children and offers approaches for children to practice and explore language. Writing – a different but parallel process – can open the door to reading, and an effective writing approach in the home and early childhood classrooms leads to the development of phonemic awareness, understanding of phonetic principles, vocabulary, fluency, and comprehension. Effective early childhood teachers are those that extend the knowledge children have amassed at home and use the knowledge of how children learn

naturally in the world to inform their practice. This book offers the purpose, context, and outcomes of including writing right from the start in young children's literacy learning. Through analysis of writing samples, research, and principles of best practices, Shea outlines the essential ingredients for early language learning and provides a developmentally appropriate approach to language learning. Throughout the chapters, Shea integrates discussion of assessment, classroom environment, instructional/teacher scaffolding, and differentiating instruction across developmental levels along with the supporting theory. Special features: vignettes and descriptions of Pre-K, K, and Grade 1 classrooms that
