Books by William Bridges | Transition Management Leaders

There are three phases: endings, neutral zone and then beginnings to any transition or change in life. It's very hard to be in the neutral zone and it is absolutely essential. Rushing the process, as Bridges says, means we don't fully make sense of the change or transition and are bound to repeat the same situation or stay stuck.

Several years ago Bruce Feiler began to notice a pattern: the old stories about the major plot points

Bookmark File PDF

Transitions Making Sense

Of our lives – a straight line from childhood to education to rising within a single career, having a family, and growing old with a life partner – were no longer holding true. People felt they were living their lives out of the expected order and weren't sure how to navigate everything that wasn't supposed to happen. Galvanised by a family crisis that spoke quite poignantly to this loss of meaning, Feiler set out on what became an epic journey to harvest American life stories and see what he could learn from them.

The business world is a

place of constant change, with stories of corporate mergers, layoffs, bankruptcy, and restructuring hitting the news every day. Yet as veteran consultant William Bridges maintains, the situational changes are not as difficult for companies to make as the psychological transitions. In the best-selling *Managing Transitions*, Bridges provides a clear understanding of what change does to employees and what employees in transition can do to an organization. Directed at managers and employees in today's corporations, Bridges shows

how to minimize the distress and disruptions caused by change. Managing Transitions addresses the fact that it is people who have to carry out the change. When the book was originally published a decade ago, Bridges was the first to provide any real sense of the emotional impact of change and what can be done to keep it from disrupting the entire organization. With new information and commentary on layoffs, corporate suspicion, and the increasing tumult in the business world, Managing Transitions remains the definitive guide to dealing with change.

Transitions Making Sense Of Lifes Changes

William Bridges' lifelong work has been devoted to a deep understanding of transitions and to helping others through them. When his own wife of thirty-five years died of cancer, however, he was thrown head-first into the kind of painful and confusing abyss he had known before only in theory. An honest account of being in transition, this uncommonly wise and moving book is a richly textured map of the personal, professional, and emotional transformations that grow out of tragedy and crisis. Demonstrating how disillusionment, sorrow, or
