Denis Johnson has his own distinctive voice, but the winding and sometimes paranoid logic reminds me of those authors. The novel explores some very dark themes concerning war and truth and spirituality. And it doesn't pull any punches when it comes to action or language.

The lives of Skip Sands, a spy-in-training engaged in psychological operations against the Vietcong, and brothers Bill and James Houston, young men who drift out of the Arizona desert into a war, intertwine in a compelling novel of America during the Vietnam War.

Once upon a time there was a war . . . and a young American who thought of himself as the Quiet American and the Ugly American, and who wished to be neither, who wanted instead to be the Wise American, or the Good American, but who eventually came to witness himself as the Real American and finally as simply the Fucking American. That's me. This is the story of Skip Sands—spy-in-training, engaged in Psychological Operations against the Vietcong—and the disasters that befall him thanks to his famous uncle, a war hero known in intelligence circles simply as the Colonel. This is also the story of the Houston brothers, Bill and James, young men who drift out of the Arizona desert into a war in which the line between disinformation and delusion has blurred away. In its vision of human folly, and its gritty, sympathetic portraits of men and women desperate for an end to their loneliness, whether in sex or death or by the grace of God, this is a story like nothing in our literature. Tree of Smoke is Denis Johnson's first full-length novel in nine years, and his most gripping, beautiful, and powerful work to date. Tree of Smoke is the 2007 National Book Award Winner for Fiction.

From the author of "Jesus' Son" comes this long-awaited follow-up—a National Book Award-winning tale of two American families swept up in the secrets and lies of the Vietnam war.

Tree of Smoke - the name given to a 'psy op' that might or might not be hypothetical and might or might not be officially sanctioned - is Denis Johnson's most gripping, visionary and ambitious work to date. Set in south-east Asia and the US, and spanning two decades, it ostensibly tells the story of Skip Sands, a CIA spy who may or may not be engaged in psychological operations against the Viet Cong -- but also takes the reader on a surreal yet vivid journey, dipping in and out of characters' lives to reveal fundamental truths at the heart of the human condition. 'A Catch-22 for our times' Alan Warner, Books of the Year, Observer 'The God I want to believe in has a voice and a sense of humour like Denis Johnson's' Jonathan Franzen 'An epic of drenched sensuality and absurdly chewable dialogue, as though Don DeLillo and Joseph Heller had collaborated on a Vietnam war novel' Steven Poole, Books of the Year, New Statesman

One of the most acclaimed books of our time—the definitive Vietnam War exposé and the winner of the Pulitzer Prize and the National Book Award. When he came to Vietnam in 1962, Lieutenant Colonel John Paul Vann was the one clear-sighted participant in an enterprise riddled with arrogance and self-deception, a charismatic soldier who put his life and career on the line in an attempt to convince his superiors that the war should be fought another way. By the time he died in 1972, Vann had embraced the follies he once decried. He died believing that the war had been won. In this magisterial book, a monument of history and biography that was awarded the National Book Award and the Pulitzer Prize for Nonfiction, a renowned journalist tells the story of John Vann—"the one irreplaceable American in Vietnam"—and of the tragedy that destroyed a country and squandered so much of America's young manhood and resources.

A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year One of NPR's 10 Best Novels of 2011 Denis Johnson's Train Dreams is an epic in miniature, one of his most evocative and poignant fictions. Robert Grainer is a day laborer in the American West at the start of the twentieth century—an ordinary man in extraordinary times. Buffeted by the loss of his family, Grainer struggles to make sense of this strange new world. As his story unfolds, we witness both his shocking personal defeats and the radical changes that transform America in his lifetime. Suffused with the history and landscapes of the American West—its otherworldly flora and fauna, its rugged loggers and bridge builders—the new novella by the National Book Award-winning author of Tree of Smoke captures the disappearance of a distinctly American way of life.

Denis Johnson's New York Times bestseller, *The Laughing Monsters*, is a high-suspense tale of kaleidoscoping loyalties in the post-9/11 world that shows one of our great novelists at the top of his game. Roland Nair calls himself Scandinavian but travels on a U.S. passport. After ten years' absence, he returns to Freetown, Sierra Leone, to reunite with his friend Michael Adriko. They once made a lot of money here during the country's civil war, and, curious to see whether good luck will strike twice in the same place, Nair has allowed himself to be drawn back to a region he considers hopeless. Adriko is an African who styles himself a soldier of fortune and who claims to have served, at various times, the Ghanaian army, the Kuwaiti Emiri Guard, and the American Green Berets. He's probably broke now, but he remains, at thirty-six, as stirred by his own doubtful schemes as he was a decade ago. Although Nair believes some kind of money-making plan lies at the back of it all, Adriko's stated reason for inviting his friend to Freetown is for Nair to meet Adriko's fiancée, a grad student from Colorado named Davidia. Together the three set out to visit Adriko's clan in the Uganda-Congo borderland—but each of these travelers is keeping secrets from the others. Their journey through a land abandoned by the future leads Nair, Adriko, and Davidia to meet themselves not in a new light, but rather in a new darkness.

Hailed by the New York Times as "wildly ambitious" and "the sort of book that a young Herman Melville might have written had he lived today and studied such disparate works as the Bible, 'The Wasteland,' Fahrenheit 451, and Dog Soldiers, screened Star Wars and Apocalypse Now several times, dropped a lot of acid and listened to hours of Jimi Hendrix and the Rolling Stones," *Fiskadoro* is a stunning novel of an all-too-possible tomorrow. Deeply moving and provocative, *Fiskadoro* brilliantly presents the sweeping and heartbreaking tale of the survivors of a devastating nuclear war and their attempts to breaking tale of the survivors of a devastating nuclear war and their attempts to salvage remnants of the old world and rebuild their culture.

From the National Book Award-winning, bestselling author of *Tree of Smoke* comes a provocative thriller set in the American West. *Nobody Move*, which first appeared in the pages of *Playboy*, is the story of an assortment of lowlifes in Bakersfield, California, and their cat-and-mouse game over \$2.3 million. Touched by echoes of Raymond Chandler and Dashiell Hammett, *Nobody Move* is at once an homage to and a variation on literary form. It salutes one of our most enduring and popular genres—the American crime novel—but with a grisly humor and outrageousness that are Denis Johnson's own. Sexy, suspenseful, and above all entertaining, *Nobody Move* shows one of our greatest novelists at his versatile best.
