Warning: Contains scenes of an adult nature, and a hero so mouth-watering, he will put you off chocolate What happens when the worlds of two tortured souls collide? Angelina Bradshaw has always believed that she does not need a man in her life. That's what she has been telling herself her entire adult life. She feels worlds apart from her family's dreams for her to meet a man, settle down, and have babies. She certainly can't be doing that because love just gets in the way. She has a 'go to' guy and that's enough for her. Living in rural Cornwall, she is bored and in desperate need of adventure, so when a family friend offers her a job in London, there's no hesitation. She expected adventure, she expected a new start, but what she didn't expect was to meet a man who would turn her life upside-down. Seth Jacobs is hot, sexy, and can't understand why Angelina doesn't want him. No one has ever said no to Seth Jacobs-in fact-they all fall at his feet. Seth pursues her relentlessly and Angelina fights him at every corner. He is the only man who has ever affected her, and the need to run from him is immense. However, Seth is not one to give up so easily. He soon finds himself on a

mission, determined to win her heart. Unfortunately for Angelina, all is not well when her past and present collide after receiving some unwelcoming and frightening news from home. She feels desperate and alone, but most of all, she feels she has to push Seth away before it's too late. To make matters worse, a catastrophic secret from the past is revealed, threatening to destroy the one thing, Angelina finally holds dear to her heart.

On my fourteenth birthday, I was promised to a very wealthy man... A domineering man. A powerful man. On that day, the first of two transactions were made with my very unloving parents. I became his possession. Something to own. Something to keep. An object intended only for his desire, his pleasure, and his ... indulgence. Although promised to this man, I at least remained safe ... untouched ... pure. I was to be his and his alone. On my eighteenth birthday, the second transaction took place. I escaped... But he came for me. Now, I'm his. He owns my body and my soul. And, as if all of that wasn't enough, he wants to own my heart too. I'm trying to resist him-trying to fight that irresistible monster inside of him. But, as with everything else in my life, nothing is ever that easy.

From an early age, I was bullied and abused. Forced in to submission. Forced to be a victim. Until one fateful day just before my sixteenth birthday when I finally cracked. With the snap of a finger, I was a changed girl. No longer timid. No longer frightened. Instead, I armed myself with the knowledge of their secrets. All who had bullied me. All who had abused me. I am no longer their victim. The timid little plaything they can pick up whenever they damn well please. Now I am vengeance. I am the eye of the storm. Nothing and no one can stand in

my way. And if anyone dare try ... Be prepared to pay in blood. WARNING: This book contains explicit, taboo, dark and twisted scenes.

Travis Maddox, Eastern University's playboy, makes a bet with good girl Abby that if he loses, he will remain abstinent for a month, but if he wins, Abby must live in his apartment for the same amount of time.

Jonas Uhrig, a crime reporter with a knack for stumbling onto murder scenes, The plot that have many twists and turns.

"The universe is conspiring against Ava Breevort. When a last-ditch attempt to salvage her trip back home is thwarted by an arrogant Scotsman, their antagonism somehow lands them in bed for the steamiest layover Ava's ever had. And that's all it is--until Caleb Scott basically shows up on her doorstep. When pure chance pulls Ava back into Caleb's orbit, he proposes they enjoy their physical connection while he's stranded in Boston. Ava agrees, knowing her heart's in no danger since a) she barely likes Caleb and b) his existence in her life is temporary. But it turns out Caleb Scott isn't quite so unlikeable after all. When his stay in Boston becomes permanent, Ava must decide whether to fight her feelings for him or give into them. But even if she does decide to risk her heart on Caleb, there is no guarantee her stubborn Scot will want to risk his heart on her"--

is a word that's followed me since the day I met her. I'm not too ashamed to admit it flows through my veins. I, of all people, realise how dangerous that can be. I may have escaped, but no matter how much I run, she's there, reminding me of what I did...what I miss. Even in death, she haunts me. If losing her wasn't enough, I constantly have to live with her inside my head during the day, in my dreams at night. She's punishing me. It's what she does best. Even gone, her claws sink deep into my skin. I thought it was over. I was wrong. It seems Scarlet's not quite done with me yet. Warning: There are scenes - as in the previous book, Siren - which may trigger those sensitive to sexual abuse.

I'm obsessed with a man I can't have. For over a year, I have not only worked with Jake, but I have lived with him too. Why can't I have him? He's getting married to my mother. When she suddenly decides to move out of the house, the tension between Jake and I reaches a fever pitch. Feelings which had been bottled up for so long are now bursting to get out. I can no longer hide the overwhelming emotions that flow through me. Unfortunately, neither can a serial killer on the loose dubbed "The Blonde Killer." I am his obsession. And Jake, the senior detective in charge of the Major Investigations Unit, is responsible for catching the murderer. I'm scared, but I know Jake will do everything in his power to protect me. I feel things can't get any worse. Until they do.

At one time, I had truly believed that I'd experienced enough drama in my life. Clearly, I'd been wrong. It all began the night before I was due to start my final year of school-the night of my eighteenth birthday. Since I had been considered "missing" for three years, I had failed

to finish off the last year of my education. This was why I needed to let loose a little. I was turning eighteen and was finally legal to drink, so, why not? The next morning, I would be going to school with a bunch of ladies three years younger than I was. Even if it was for no other reason, I felt this entitled me to have a little fun. The night started off well enough: Girl meets boy. Girl gets dared to buy boy drink and kiss him within fifteen minutes of receiving said drink. It sounds like it would have been plain and simple, right? Wrong. I had no idea that his kiss would be the kiss to end all kisses. One taste of him, and I was lost for the first time in all my eighteen years. But I wasn't meant to feel anything... Three years of living in Hell had taught me that. But, this man ... just ... awakened me. I went home that night feeling both alive and scared shitless at the same time. However, that wasn't the worst of it. The very next day at assembly in school, we were all introduced to our new headmaster... None other than the very same man who had-just the night before-locked lips with me in the most hypnotic, take-your-breath-away kiss I had ever had. Yeah, I am seriously screwed. He's a forbidden fruit that I long to taste again. No matter how hard I try, I can't seem to get that kiss out of my head. So badly, I want to escape him, his presence, his ... everything. It seems, however, that the universe has other ideas.

I don't use the term "bully" lightly. However, I have no qualms about using it when it comes to Max Cooper. Arrogant. Aggravating. Annoying. Those are just a few of the names I have for him that start with the letter A. I haven't gotten through the rest of the alphabet ... yet. From the moment I met Max three years ago, he was nothing but an asshole. The only reason we put up with each other is because we share the same best friend. Then, everything suddenly

changes when Max is involved in a horrific accident that sets him back three years. He remembers his friends, but here's the real kicker: He doesn't remember ... me. At first, I think it must be a cruel joke, but then I see how serious he is. Over time, I get to know the real Max Cooper. The one who can be sweet, funny, and kind. The one who shows me he's not such an asshole after all. Then, the inevitable happens. I fall for him. Just as things between us begin to balance out, I lose my own equilibrium, and I don't know why. But, despite all of this, no one is prepared for the real terror that's about to unfold.
