Almost all organisations today face unprecedented levels of change, complexity and volatility. Navigating the resultant disruption dynamics is one of the most important stewardship challenges facing strategic leaders. Getting it right can pay enormous dividends, but getting it wrong can lead to spectacular failure and the ultimate demise of once admired organisations. To address this threat, strategic leaders need to better understand how to navigate complexity and volatility and how to execute strategy in this rapidly changing environment. This book identifies 12 different strategy execution processes used to realise deliberate and emergent strategies – each illustrated with case studies and essential lessons for strategic leaders. The authors then discuss the effectiveness of these processes in different types of complex environments, showing how, used in isolation, each process can, at times, impede performance, sometimes creating survival risks that materialise today or in the future. The authors show the importance of "ambidexterity" and the need for organisations to balance the pursuit of internal efficiency and external market flexibility, both of which are essential to thriving in complex environments. This book provides essential tools for leaders to rethink and reconfigure their strategy execution practices in light of the significant change surrounding their organisations. The book is based on a 5-year, multistage study comprehensively reviewing cutting-edge research on strategy execution, reviewing seminal texts on strategy execution and, through in-depth case study interviews and cross-sectional surveys, identifying contemporary strategy execution practices of a range of different organisations across industries and sectors.

Mary Gossart has worked in the field of health and sexuality education since 1975. This is a memoir by two-time CrossFit Games champion, Katrin Davidsdottir. Dottir is two-time consecutive CrossFit Games Champion Katrin Davidsdottir's inspiring and poignant memoir. As one of only three women in history to have won the title of "Fittest Woman on Earth" twice, Davidsdottir knows all about the importance of mental and physical strength. She won the title in 2015, backing it up with a second win in 2016, after starting CrossFit in just 2011. A gymnast as a youth, Davidsdottir wanted to try new challenges and found a love of CrossFit. But it hasn't been a smooth rise to the top. In 2014, just one year before taking home the gold, she didn't qualify for the Games. She used that loss as motivation and fuel for training harder and smarter for the 2015 Games. She pushed herself and refocused her mental game. Her hard work and perseverance paid off with her return to the Games and subsequent victories in 2015 and 2016. In Dottir, Davidsdottir shares her journey with readers. She details her focus on training, goal setting, nutrition, and mental toughness.

It takes a special set of trading skills to thrive in today's intensely volatile markets, where point swings of plus or minus 200 points can occur on a weekly, sometimes daily, basis. The Volatility Course arms stock and options traders with those skills. George Fontanills and Tom Gentile provide readers with a deeper understanding of market volatility and the forces that drive it. They develop a comprehensive road map detailing how to identify its ups and downs. And they describe proven strategies and tools for quantifying volatility and confidently developing plans tailored to virtually any given market condition. The companion workbook provides step-by-step exercises to help you master the strategies outlined in The Volatility Course before putting them into action in the markets.

Through the pages of the Gospels, we see Jesus model a "show and tell" life and ministry to His followers- He "showed" them how to serve by healing the sick, feeding the hungry, and caring for the poor-and while He was demonstrating compassion, He taught them, "telling" them of God's immense love. This is the way to show God's heart of compassion for the people in our cities and towns, and this is the way to break down barriers so people will listen to the life-changing message of the gospel of grace. In this book, you'll sense Dino's heart, be inspired by his stories and learn from his experiences, as well as many ARC churches that are serving their cities with a Jesus-style no-strings-attached kind of love. This is at the core of who ARC is - a deep passion to see churches thrive as part of the cities they serve.
