A unique twist on a common rail fuel injection system also lets the engine run much more quietly and smoothly. "It's amazing," Moore says. "Drivers are going to feel a noticeable difference." Two friends—a Democrat and a Republican—travel across America "on a deeply personal journey through the heart of a divided nation . . . to find growth, hope and fundamental strength in their own lives" (Bob Woodward) and the country they love, in good times and bad. In the year before Donald Trump was elected president, Jordan Blashek, a Republican Marine, and Chris Haugh, a Democrat and son of a single mother from Berkeley, CA, formed an unlikely friendship. Jordan was fresh off his service in the Marines and feeling a bit out of place at Yale Law School. Chris was yearning for a sense of mission after leaving Washington D.C. Over the months, Jordan and Chris's friendship blossomed not in spite of, but because of, their political differences. So they decided to hit the road in search of reasons to strengthen their bond in an era of strife and partisanship. What follows is a three-year adventure story, across forty-four states and along 20,000 miles of road to find out exactly where the American experiment stands at the close of the second decade of the twenty-first century. In their search, Jordan and Chris go from the tear gas-soaked streets of a Trump rally in Phoenix, Arizona to the Mexican highways running between Tijuana and Juarez. They witness the full scope of American life, from lobster trawlers and jazz clubs of Portland and New Orleans to the streets of Tulsa, Oklahoma and the prisons of Detroit, where former addicts and inmates painstakingly put their lives back together. Union is a road narrative, a civics lesson, and an unforgettable window into one epic friendship. We ride along with Jordan and Chris for the whole journey, listening in on front-seat arguments and their conversations with Americans from coast to coast. We also peer outside the car to understand America's hot-button topics, including immigration, mass incarceration, and the military-civilian divide. And by the time Jordan and Chris kill the engine for the last time, they answer one of the most pressing questions of our time: How far apart are we really?

"The rhythmic, onomatopoeic text dances across exuberant watercolors with lots of movement. This celebration of a child's agency in choosing a means of artistic expression strikes just the right note." --Kirkus "A delightful offering for reading aloud, especially during music-themed storytimes." --School Library Journal From New York Times bestselling author Chris Barton and new illustrator Louis Thomas comes a fun, rhythmic picture book about finding the music that is perfect for you! A boy who loves to make noise gets to pick only one instrument (at his parents urging) in a music store, but there is too much to choose from! There's triangles and sousaphones! There's guitars and harpsichords! Bagpipes and cellos and trombones! How can he find the one that is just right for him out of all those options?

If your drive a vehicle in Ontario with airbrakes, this is the handbook for you.

LOOKING FOR TROUBLE: Mark Dalton isn't sure if he finds trouble or if trouble finds him. But ever since his wife traded him in for a prettier model, and he traded in his Private Eye business for a Peterbilt, it seems to be everywhere he goes. In this collection of loosely interwoven who-dunnits, Edo van Belkom introduces Mark Dalton, Trucker Detective. Whether he's scooping up pretty hitchhikers with secrets, getting back goods stolen right out from under his nose, making a shady repair shop pay, or solving a racially charged, post-9/11 murder, Dalton is one busy trucker. And truth is, he wouldn't have it any other way.

Treoir Dragon Chronicles of the Belador (TM) World urban fantasy series by New York Times Bestseller Dianna Love brings a fresh new look to this genre. Dragons didn't just appear two thousand years ago and not all died in the Dragani War. In today's world, rumors are flying that nonhumans live among humans with Atlanta at the epicenter. Supernatural predators are rising to take advantage of the impending chaos. One in particular has opened a rift allowing deadly Imortiks to slip out. Once two more parts of an ancient grimoire are found, the death wall between humanity and Imortiks will fall. Beladors ruled by an immortal dragon shifter are the last hope for humans and nonhumans, but only if he can find those grimoire volumes. Who is to say other dragon shifters no longer live since he is here? Dive into an urban fantasy that will play out across the world unlike any other fantasy you've read. "HOLY COW! This is epic fantasy at its best!" In My Humble Opinion "Excellent storytelling that is as breathtaking as it is enchanting!" Clare and Lou's Mad About Books 9 book series released in E-book and Audiobook box sets of 3 books each, as well as print books with 3 books each. \*All 9 books released in one year.
