WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam. David S. Massaquoi, Sr., director of Education, The Salvation Army/Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the "Turning the Tide" project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam. Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

This book titled "Basic Computer Knowledge Multiple Choice Questions and Answers (MCQs): Quizzes & Practice Tests with Answer Key" covers mock tests for competitive exams. This book can help to learn and practice Basic Computer Knowledge Quizzes as a quick study guide for placement test preparation. "Basic Computer Knowledge MCQs" will help with theoretical, conceptual, and analytical study for self-assessment, career tests. "Basic Computer Knowledge Multiple Choice Questions and Answers (MCQs)" pdf is a revision guide with a collection of trivia questions to fun quiz questions and answers pdf on topics: application software, applications of computers, basics of information technology, computer architecture, computer networks, data communication, data protection and copyrights, data storage, displaying and printing data, interacting with computer, internet fundamentals, internet technology, introduction to computer systems, operating systems, processing data, spreadsheet programs, windows operating system, word processing to enhance teaching and learning. Basic Computer Knowledge Quiz Questions and Answers pdf also covers the syllabus of many competitive papers for admission exams of different universities from computer science textbooks on chapters: Application Software Multiple Choice Questions: 100 MCQs Applications of Computers Multiple Choice Questions: 29 MCQs Basics of Information Technology Multiple Choice Questions: 150 MCQs Computer Architecture Multiple Choice Questions: 93 MCQs Computer Networks Multiple Choice Questions: 72 MCQs Data Communication Multiple Choice Questions: 57 MCQs Data Protection and Copyrights Multiple Choice Questions: 50 MCQs Data Storage Multiple Choice Questions: 89 MCQs Displaying and Printing Data Multiple Choice Questions: 47 MCQs Interacting with Computer Multiple Choice Questions: 53 MCQs Internet Fundamentals Multiple Choice Questions: 55 MCQs Internet Technology Multiple Choice Questions: 85 MCQs Introduction to Computer Systems Multiple Choice Questions: 106 MCQs Operating Systems Multiple Choice Questions: 200 MCQs Processing Data Multiple Choice Questions: 111 MCQs Spreadsheet Programs Multiple Choice Questions: 78 MCQs Windows Operating System Multiple Choice Questions: 60 MCQs Word Processing Multiple Choice Questions: 66 MCQs The chapter "Application Software MCQs" covers topics of application software, presentation basics, presentation programs, presentation slides, word processing elements, and word processing programs. The chapter "Applications of Computers MCQs" covers topics of computer applications, and uses of computers. The chapter "Basics of Information Technology MCQs" covers topics of introduction to information technology, IT revolution, cathode ray tube, character recognition devices, computer memory, computer mouse, computer plotters, computer printers, computer system software, memory devices, information system development, information types, input devices of computer, microphone, output devices, PC hardware and software, random access memory ram, read and write operations, Read Only Memory (ROM), Sequential Access Memory (SAM), static and dynamic memory devices, system software, video camera, and scanner. The chapter "Computer Architecture MCQs" covers topics of introduction to computer architecture, errors in architectures, arithmetic logic unit, bus networks, bus topology, central processing unit, computer languages, input output unit, main memory, memory instructions, motherboard, peripherals devices, Random Access Memory (RAM), Read Only Memory (ROM), and types of registers in computer. The chapter "Computer Networks MCQs" covers topics of introduction to computer networks, LAN and WAN networks, network and internet protocols, network needs, network topologies, bus topology, ring topology, star topology, dedicated server network, ISO and OSI models, networking software, and peer to peer network. The chapter "Data Communication MCQs" covers topics of introduction to data communication, data communication media, asynchronous and synchronous transmission, communication speed, modulation in networking, and transmission modes. The chapter "Data Protection and Copyrights MCQs" covers topics of computer viruses, viruses, anti-virus issues, data backup, data security, hackers, software and copyright laws, video camera, and scanner. The chapter "Data Storage MCQs" covers topics of measuring of data, storage device types, storage devices basics, measuring and improving drive performance, and storage devices files. The chapter "Displaying and Printing Data MCQs" covers topics of computer printing, computer monitor, data projector, and monitor pixels. The chapter "Interacting with Computer MCQs" covers topics of computer hardware, computer keyboard, audiovisual input devices, optical character recognition devices, optical input devices, and optical input devices examples. The chapter "Internet Fundamentals MCQs" covers topics of introduction to internet, internet protocols, internet addresses, network of networks, computer basics, e-mail, and World Wide Web (WWW). The chapter "Internet Technology MCQs" covers topics of history of internet, internet programs, network and internet protocols, network of networks, File Transfer Protocol (FTP), online services, searching web, sponsored versus non-sponsored links, using a metasearch engine, using Boolean operators in your searches, using e-mail, web based e-mail services, and World Wide Web (WWW). The chapter "Introduction to Computer Systems MCQs" covers topics of parts of computer system, computer data, computer for individual users, computer hardware, computer software and human life, computers and uses, computers in society, desktop computer, handheld pcs, mainframe computers, minicomputers, network servers, notebook computers, smart phones, storage devices and functions, supercomputers, tablet PCs, and workstations. The chapter "Operating Systems MCQs" covers topics of operating system basics, operating system processes, operating system structure, Linux operating system, operating system errors, backup utilities, different types of windows, Disk Operating System (DOS), DOS commands, DOS history, user interface commands, user interface concepts, user interfaces, and windows XP. The chapter "Processing Data MCQs" covers topics of microcomputer processor, microcomputer processor types, binary coded decimal, computer buses, computer memory, hexadecimal number system, machine cycle, number systems, octal number system, standard computer ports, text codes, and types of registers in computer. The chapter "Spreadsheet Programs MCQs" covers topics of spreadsheet programs basics, spreadsheet program cells, spreadsheet program wizards, and spreadsheet program wizards. The chapter "Windows Operating System MCQs" covers topics of windows operating system, features of windows, window desktop basics, window desktop elements, window desktop types. The chapter "Word Processing MCQs" covers topics of word processing basics, word processing commands, word processing fonts, and word processing menu.

This publication on School Environment in Nigeria, Ghana, and the Philippines is a continuation of our maiden publication published in 2015. The inclusion of Ghana in this edition is a conviction of the countrys educational system not only as a fast and dynamic developing economy in the African continent, but also one with an enviable educational culture. The articles in this edition are grouped under quality assurance, higher education, management, business, library, information and communications technology, special education, internationalization, and science issues with a view of proffering solutions, suggestions, and recommendations to several questions that may have risen over time in the academia.

This book gathers high-quality research papers presented at the 2nd AUE international research conference, AUEIRC 2018, which was organized by the American University in the Emirates, Dubai, and held on November 13th-15th, 2018. The book is broadly divided into two main sections: Sustainability and Smart Business, and Sustainability and Creative Industries. The broad range of topics covered under these sections includes: risk assessment in agriculture, corporate social responsibility and the role of intermediaries, the impact of privatizing health insurance, political events and their effect on foreign currency exchange, the effect of sustainable HR practices on financial performance, sustainability integration in the supply chain and logistics, gender inequality in the MENA economies, the panel data model, the model of sustainable marketing in the era of Industry 4.0, micro-enterprises as a tool for combating unemployment, the impact of financial education and control on financial behavior, measuring financial and asset performance in agricultural firms, a comprehensive strategic approach to sustainability in the UAE, sustainability and project finance, HR analytics, FaD or fashion for organizational sustainability, a conceptual framework of sustainable competitive advantages, psychology of organizational sustainability, Blockchain technology and sustainability, veganism and sustainability, institution building from an emotional intelligence perspective, sustainable concrete production using CWP, occupants' behavior and energy usage in Emirati houses, the effect of shop lighting on consumer behavior, multimedia applications in digital transformation art, integrating biomimicry principles in sustainable architecture, experimental sustainable practices in fashion education, technology-assisted student-centered learning for civil engineering, and a 10-step design process for architectural design studios. All contributions present high-quality original research work, findings and lessons learned in practical development.
