Izzy, Hudson, and Addy lost their father in a terrible diving accident. Now they have to figure out how to accept his absence, live life without him, and make peace with missing him and carrying his memory forever. *A Hui Hou: Until We Meet Again* is a book for processing and understanding grief, told by children, to children, and for children.

An emotionally compelling tale of love and mystery set in the publishing world of World War II London, *When We Meet Again* tells the story of a mother searching for her stolen child, and illustrates the unbreakable bonds among families, lovers, and readers under the shadow of war. London, 1943: War and dwindling resources have taken their toll on the book publishing industry, but Alice Cotton, a young editor at Partridge Press, has seen her star begin to rise. She has a knack for creating new books to distract readers from the grim realities of the war. And the demand for books is greater than ever, both on the battlefield and on the home front. But just as her hard work seems poised to pay off, Alice unexpectedly falls pregnant. Facing the stigma of being an unwed mother, Alice flees to a small town to give birth to her child, Eadie, whom her family has promised to help raise. Instead, her mother sells the newborn to "baby farmers" who plan to give the child up for a private adoption. Alice begins her desperate hunt to find the daughter she never planned for but suddenly deeply loves. Alice's story intertwines with that of Theo Bloom, an American editor

tasked with helping Partridge Press overcome the publishing obstacles of the war. Theo and Alice are quickly drawn to each other during their darkest hours, bound by hope, love, secrets, and the belief that books have the power to change lives.

Treasured memories... come from ordinary moments. Between one winsome grandfather and one lucky little boy are keepsakes of the heart... memories made by the two of them for all time. Most are simple. Checkers and hot chocolate. Hugs and silly songs. A special wink that means "we're in this together." But their time together is coming to an end. With insight and tenderness, author Susan Jones tells the story of what comes next for a little boy who discovers memory-making is a language of love that can be whispered across the years.

The notes tell her that she must write a letter—a true story, and that she can't share her mission with anyone. It would be easy to ignore the strange messages, except that whoever is leaving them has an uncanny ability to predict the future.
