Our mission is to spread the stories of the women in Chiapas, with them and by them, for a greater recognition of their cultural rights as Mayan women.

HOME | Mysite

The women of Chiapas have preserved for centuries the ancestral knowledge of La Milpa, a valuable pillar of agriculture that has provided the community with food and cultural sovereignty. The Presidium of La Milpa celebrates their invaluable contribution to this tradition, fostering seed preservation, soil health, and environmental well-being as a foundation for their community.

"Women Of Chiapas goes behind the evocative image of the masked and armed Zapatista female warrior to document the much broader struggle for survival, dignity, and justice being waged by hundreds of thousands of women in southern Mexico. The essays provide history and a context for an unanticipated social-change movement which has truly come 'up from under.'

It they haven't seen soldiers for a while, the women go home. Because the men are gone, the fields lay idle and beans and corn are scarce. The women are behind on the coffee harvest, and there is no money to buy what they cannot grow. Women in many rural communities in Chiapas have begun to stand up to the military.

Textile Art of Chiapas Maya In the state of Chiapas in southwestern Mexico, Maya-speaking women weave intricate designs into their textiles by adding colored yarn into the warp and weft of their backstrap looms. Known as a brocade this ancient design technique is still an intricate art form among the 200,000 Maya who live in the Chiapas mountains.

Get Free Women Of Chiapas

Born in the remote mountains and tropical forests of southern Mexico, the elder women of Chiapas have witnessed tumultuous change during their lifetimes, which in some cases spanned the entire twentieth century. Through hard experience, these women have gained unique perspectives on the transformations that modernity has brought to their traditional way of life. Reflecting on this rich store of wisdom, artists Gayle Walker and Kiki Surez began interviewing and photographing Chiapanec women between the ages of 60 and 108. In this book, they present the life stories of twenty-eight women, who speak for the silent members of a divided society--well-to-do, urban ladinas of European descent; mixed race, low-income mestizas; and indigenous Maya from the highlands and Lacandon rainforest. As the women tell their stories, they shed light on major historical events as well as the personal dramas of daily life. For some, the Mexican Revolution and the 1918 Spanish influenza epidemic are still painfully vivid. Others focus on recent social upheavals, such as the 1994 Zapatista Uprising. Women whose families had more resources fondly recall their high school days, while poorer women tell tragic stories of deprivation, hunger, and family violence. Particularly thought-provoking are the women's attitudes toward marriage, work, religion, and their own mortality. Considering the limited opportunities these women faced, Walker and Surez sum up the significant theme of these interviews by observing that the women of Chiapas "remind us that if we are flexible, creative, and courageous, we have many more possibilities than we think we have."

This book presents the concerns, visions and struggles of women in Chiapas, Mexico in the context of the uprising of the Zapatista Army of National Liberation (EZLN). The book is organized around three issues that have taken center state in women's recent struggles--structural violence and armed conflict; religion and empowerment and women's organizing. Also includes maps.

Most recent books about Chiapas, Mexico, focus on political conflicts and the indigenous movement for human rights at the macro level. None has explored those conflicts and struggles in-depth through an individual woman's life story. The Journey of a Tzotzil-Maya Woman of Chiapas, Mexico now offers that perspective in one woman's own words. Anthropologist Christine Eber met "Antonia" in 1986 and has followed her life's journey ever since. In this book, they recount Antonia's life story and also reflect on challenges and rewards they have experienced in working together, offering insight into the role of friendship in anthropological research, as well as into the transnational movement of solidarity with the indigenous people of Chiapas that began with the Zapatista uprising. Antonia was born in 1962 in San Pedro Chenalhó, a Tzotzil-Maya township in highland Chiapas. Her story begins with memories of childhood and progresses

to young adulthood, when Antonia began working with women in her community to form weaving cooperatives while also becoming involved in the Word of God, the progressive Catholic movement known elsewhere as Liberation Theology. In 1994, as a wife and mother of six children, she joined a support base for the Zapatista Army of National Liberation. Recounting her experiences in these three interwoven movements, Antonia offers a vivid and nuanced picture of working for social justice while trying to remain true to her people's traditions.

Yielding pivotal new perspectives on the indigenous women of Mexico, *Dissident Women: Gender and Cultural Politics in Chiapas* presents a diverse collection of voices exploring the human rights and gender issues that gained international attention after the first public appearance of the Zapatista National Liberation Army (EZLN) in 1994. Drawing from studies on topics ranging from the daily life of Zapatista women to the effect of transnational indigenous women in tipping geopolitical scales, the contributors explore both the personal and global implications of indigenous women's activism. The Zapatista movement and the Women's Revolutionary Law, a charter that came to have tremendous symbolic importance for thousands of indigenous women, created the potential for renegotiating gender roles in Zapatista communities. Drawing on the original research of scholars with long-term field experience in a range of Mayan communities in Chiapas and featuring several key documents written by indigenous women articulating their vision, *Dissident Women* brings fresh insight to the revolutionary crossroads at which Chiapas stands—and to the worldwide implications of this economic and political microcosm.

In the Mexican state of Chiapas women still marry at 13, and are often sold for a few bottles of liquor or a cow. In this volume the women of Chiapas tell of their hopes and their struggles, and their fight for a more democratic and humane way of life.

Compañeras is the untold story of women's involvement in the Zapatista movement, the indigenous rebellion that has inspired grassroots activists around the world for over two decades. Gathered here are the stories of grandmothers, mothers, and daughters who became guerilla insurgents and political leaders, educators and healers—who worked collectively to construct a new society of dignity and justice. *Compañeras* shows us how, after centuries of oppression, a few voices of dissent became a force of thousands, how a woman once confined to her kitchen rose to conduct peace negotiations with the Mexican government, and how hundreds of women overcame ingrained hardships to strengthen their communities from within.

This pioneering ethnography looks at women and drinking in the

Highland Chiapas, Mexico, community of San Pedro Chenalhó to address the issues of women's identities, roles, relationships, and sources of power. In a new epilogue, Christine Eber describes how events of the last decade, including the Zapatista uprising, have strengthened women's resolve to gain greater control over their lives by controlling the effects of alcohol in the community.

In the highlands of Chiapas, Mexico, a large indigenous population lives in rural communities, many of which retain traditional forms of governance. In 1996, some 350 women of these communities formed a weavers' cooperative, which they called Jolom Mayaetik. Their goal was to join together to market textiles of high quality in both new and ancient designs. Weaving Chiapas offers a rare view of the daily lives, memories, and hopes of these rural Maya women as they strive to retain their ancient customs while adapting to a rapidly changing world. Originally published in Spanish in 2007, this book captures firsthand the voices of these Maya artisans, whose experiences, including the challenges of living in a highly patriarchal culture, often escape the attention of mainstream scholarship. Based on interviews conducted with members of the Jolom Mayaetik cooperative, the accounts gathered in this volume provide an intimate view of women's life in the Chiapas highlands, known locally as Los Altos. We learn about their experiences of childhood, marriage, and childbirth; about subsistence farming and food traditions; and about the particular styles of clothing and even hairstyles that vary from community to community. Restricted by custom from engaging in public occupations, Los Altos women are responsible for managing their households and caring for domestic animals. But many of them long for broader opportunities, and the Jolom Mayaetik cooperative represents a bold effort by its members to assume control over and build a wider market for their own work. This English-language edition features color photographs—published here for the first time—depicting many of the individual women and their stunning textiles. A new preface, chapter introductions, and a scholarly afterword frame the women's narratives and place their accounts within cultural and historical context.
