This book answers foundational questions: Who wrote the Bible? What is its message? Why is it thought to be a "holy" book? How does one read and interpret it? Best of all, though, you'll broaden your vision of Jesus Christ, the focal point of Scripture. How? By better understanding the geographical, religious, and historical concerns that shaped the world in which he lived. You'll see Jesus as never before: both as a man of his times and culture, and as the culmination of a divine providence that prepared the way for the ministry of the Messiah. Written by renowned preacher, writer, and apologist John Stott, this new, expanded edition includes - Questions at the beginning of each chapter to help you focus - New, up-to-date maps for the chapters on history and geography - An index to help you speedily access areas of interest.

Biblical interpretation is a rational and spiritual process that attempts to understand an ancient inspired writer in such a way that the message from God may be understood and applied in our day. The spiritual process is crucial but difficult to define. It does involve a yieldedness and openness to God. There must be a hunger (1) for Him, (2) to know Him, and (3) to serve Him. This process involves prayer, confession, and the willingness for lifestyle change. The Spirit is crucial in the interpretive process, but why sincere, godly Christians understand the Bible differently is a mystery. The rational process is easier to describe. We must be consistent and fair to the text and not be influenced by our personal, cultural, or denominational biases. We are all historically conditioned. None of us are objective, neutral interpreters. This commentary offers a careful rational process containing four interpretive principles structured to help us attempt to overcome our biases. First Principle The first principle is to note the historical setting in which a biblical book was written and the particular historical occasion for its authorship (or when it was edited). The original author had a purpose and a message to communicate. The text cannot mean something to us that it never meant to the original, ancient, inspired author. His intent-not our historical, emotional, cultural, personal, or denominational need-is the key. Application is an integral partner to interpretation, but proper interpretation must always precede application. It must be reiterated that every biblical text has one and only one meaning. This meaning is what the original biblical author intended through the Spirit's leadership to communicate to his day. This one meaning may have many possible applications to different cultures and situations. These applications must be linked to the central truth of the original author. For this reason, this study guide commentary is designed to provide a brief introduction to each book of the Bible. Second Principle The second principle is to identify the literary units. Every biblical book is a unified document. Interpreters have no right to isolate one aspect of truth by excluding others. Therefore, we must strive to understand the purpose of the whole biblical book before we interpret the individual literary units. The individual parts-chapters, paragraphs, or verses-cannot mean what the whole unit does not mean. Interpretation must move from a deductive approach of the whole to an inductive approach to the parts. Therefore, this study guide commentary is designed to help the student analyze the structure of each literary unit by paragraphs. Paragraph and chapter divisions are not inspired, but they do aid us in identifying thought units. Third Principle The third principle is to read the Bible in different translations in order to grasp the widest possible range of meaning (semantic field) that biblical words or phrases may have. Often a phrase or word can be understood in several ways. These different translations bring out these options and help to identify and explain the manuscript variations. These do not affect doctrine, but they do help us to try to get back to the original text penned by an inspired ancient writer. Fourth Principle The fourth principle is to note the literary genre. Original inspired authors chose to record their messages in different forms (e.g., historical narrative, historical drama, poetry, prophecy, gospel [parable], letter, apocalyptic). These different forms have special keys to interpretation. This Textbook offers a quick way for the student to check his interpretations. It is not meant to be definitive, but rather informative and thought-provoking. These principles have helped me to overcome much of my historical conditioning by forcing me to struggle with the ancient text. My hope is that it will be a blessing to you as well. Dr. Bob Utley

Jesus said: " Man shall not live by bread alone, but by every Word that proceeds out of the Mouth of God " (Mat. 4:4). The Word of God is, pure and simple, the single most important thing on the face of the Earth. As someone has rightly said: • Much Bible, much Freedom! • A little Bible, a little Freedom! • No Bible, no Freedom! In his book, " Brother Swaggart, How Do I Understand the Bible? " , Brother Swaggart has tried his best to address every major Doctrine given to us in the Word of God. This is material that is necessary for every Believer to know and understand. Hopefully, we have addressed these great subjects in the Word of God in such a way to make it simple and easy to comprehend. The following are some of the subjects addressed: • The Doctrine Of The Bible • The Doctrine Of Grace • The Doctrine Of " Justification By Faith " • The Doctrine Of Our Lord Jesus Christ • The Doctrine Of Satan • The Doctrine Of Sin • The Doctrine Of The Baptism With The Holy Spirit
